To the Federal Government of America:

In response to recent physical and financial aggressions by you and those in your employee, it has become known to us that you have openly declared financial warfare against leftists and their state organizations. By extension, this means you have declared war against America 2 and its people as well.

Fortunately, we are a reasonable bunch. We offer the following conditions for your surrender:

- The Federal Government of America surrenders guardianship of all land under its protection, to America 2.
- The Federal Government of America surrenders ownership of all its land, to America 2.
- The Federal Government of America surrenders ownership of all its existing assets, to America 2.
- The Federal Government of America surrenders ownership of all its existing contracts and obligations, to America 2.

We appreciate your cooperation in advance, and may this letter serve as a reminder that we can always speed this up.

Sincerely,

Lily Erickson

President of America 2
